

# KEITH BENNETT PRESENTS HIS NEW CD:

## ARCHIVES OF THE SOUL

With CDs becoming less and less the point in modern music, I thought I'd like to make a collection of songs from my life over the years – a musical journey, to match my own, with lots of unplanned stops along the way. Simple to sophisticated, universal to esoteric, this music could be listened to any way you like, in any order. Threading its way throughout is my beloved harmonica. I was 14 when I received my first one from my father. He'd carried it with him into the Second World War and it was important enough to him to pass on to me. Some of my songs are for those special times when we're lucky enough to be on the water. I have always loved the ocean and spend as much time as I can exploring the beauty of Canada's West Coast. Many of these songs were written on or near the ocean and I hope they'll take you back there with me.
